DECLARATION PURSUANT TO 37 C.F.R. 1.132

I Alain Colens, declare and state that:

I am the patent agent identified on International Publication No. WO 2005/054901 for International Application No. PCT/EP2004/013918, the parent for the present U.S. application. I approved the wording used in the English version of the international application. On page 6, line 21; page 7, line 14; and page 9, line 6 of the specification and in claims 7, 8, 10, 11 and 12 the expression "ponderal ratio" is used. This is the French terminology which is the equivalent of "weight ratio". The French terminology is not unusual for a person whose native language is French. The equivalent English expression does not introduce new matter.

I further declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States

Serial No. 10/581,707  
Docket No. 025239.017  
Page 2

Code and that such willful false statements may jeopardize the validity of the application or any patent issuing thereon.

23 MARCH 2010  
Date

  
Alain Colens
